## **Imperial Sunset: The Fall of Napoleon, 1813-14** R F Delderfield

This vivid history of the political and military decline of Napoleon Bonaparte recounts the unraveling of his grip on Europe, beginning with the Russian incursion into France in 1813 and ending with Napoleon's first exile, to Elba, in 1814.

From his vivid picture of the Cossacks on the Elbe in the Spring of 1813, through the tortuous crumbling of the empire, to Napoleon's exile to Elba, in 1814, R. F. Delderfield paints a majestic canvas that encompasses within its sweep the Emperor, his family, his warlords and retainers, while never losing sight of the footsore and weary ragged common soldiers on their way home to put up one last heroic fight in the face of doom.

This compelling read takes you through the riches and spoils of one of history's most revered commanders, recounting the military decline of Bonaparte, the loosening of his grip on Europe and his obsession with Britain.

Family, politics and military history are the focus of this masterly study by the Napoleonic scholar R F Delderfield.
