Managing Professionals

Hans de Bruijn

Managing Professionals Hans de Bruijn

Managing Professionals deals with the tensions between managers and professionals within organizations, such as hospitals, universities, banks and judicial organizations. Often managers rely heavily on the skills and expertise of the professionals in their organizations, yet these professionals consider management a source of bureaucracy and paperwork.

This tension is explored head on in order to answer the question of how to manage an organization effectively. With numerous real-world examples, the book analyzes the problems and complexities of management in professional organizations and makes recommendations on how to manage professionals. The book focuses on a number of key issues, including:

- Management as a problem
- Management as a solution
- Knowledge and innovation
- Strategy
- Cooperation
- Performance

Managing Professionals presents an empirical analysis of the problems and offers solutions to the tension between management and professionals and will be of interest to managers and to students of management, organizational behaviour and business administration.
