Thomas M. DeBerardino

Blunt Trauma Injuries in the Athlete, An Issue of Clinics in Sports Medicine, (The Clinics: Orthopedics) Thomas M. DeBerardino

The issue will include papers on several of the most common blunt trauma injuries, including muscle contusions, genitourinary injuries, splenic and liver injuries, and trauma to the head (concussions). Although some of the topics in the proposed table of contents have been touched upon in recent years, it has been an exceptionally long time since an overview issue like this has been published. It will provide some much needed coverage for integration in Clinical Key.
