Driving Forces in Physical, Biological and Socio-economic Phenomena: A Network Science Investigation of Social Bonds and Interactions Bertrand M. Roehner

This book was first published in 2007. In recent years network science has become a dynamic and promising discipline; here it is extended to explore social and historical phenomena. While we experience social interactions every day, there is little quantitative knowledge on them. Instead we are often tempted to resort to fanciful explanations to explain social trends. Exogenous and endogenous interactions are often the key to understanding social phenomena and unravelling historical mysteries. This book begins by explaining how it is possible to bridge the gap between physics and sociology by exploring how network theory can apply to both. It then examines the macro- and micro-interactions in societies. The chapters are largely self-contained, allowing readers easily to access and understand the sections of most interest. This multi-disciplinary book will be fascinating to all physicists who have an interest in the human sciences and it will provide an alternative perspective to graduate students and researchers in sociology and econophysics.

From reader reviews:

Barbara Goodman:

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to find out everything in the world. Each e-book has different aim or even goal; it means that reserve has different type. Some people feel enjoy to spend their a chance to read a book. They are really reading whatever they have because their hobby is actually reading a book. Consider the person who don't like reading a book? Sometime, man feel need book when they found difficult problem or perhaps exercise. Well, probably you'll have this Driving Forces in Physical, Biological and Socio-economic Phenomena: A Network Science Investigation of Social Bonds and Interactions.

Eldon Hall:

Have you spare time for a day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity with regard to spend your time. Any person spent all their spare time to take a move, shopping, or went to the Mall. How about open as well as read a book titled Driving Forces in Physical, Biological and Socio-economic Phenomena: A Network Science Investigation of Social Bonds and Interactions? Maybe it is being best activity for you. You understand beside you can spend your time along with your favorite's book, you can cleverer than before. Do you agree with it is opinion or you have various other opinion?

Gregory Eubanks:

As people who live in the modest era should be revise about what going on or data even knowledge to make these keep up with the era and that is always change and advance. Some of you maybe will update themselves by studying books. It is a good choice to suit your needs but the problems coming to anyone is you don't know which you should start with. This Driving Forces in Physical, Biological and Socio-economic Phenomena: A Network Science Investigation of Social Bonds and Interactions is our recommendation to make you keep up with the world. Why, since this book serves what you want and want in this era.

Kelly Jackson:

Don't be worry for anyone who is afraid that this book will probably filled the space in your house, you will get it in e-book method, more simple and reachable. This specific Driving Forces in Physical, Biological and Socio-economic Phenomena: A Network Science Investigation of Social Bonds and Interactions can give you a lot of close friends because by you investigating this one book you have factor that they don't and make you actually more like an interesting person. This kind of book can be one of a step for you to get success. This e-book offer you information that probably your friend doesn't understand, by knowing more than some other make you to be great people. So , why hesitate? Let's have Driving Forces in Physical, Biological and Socio-economic Phenomena: A Network Science Investigation of Social Bonds and

Interactions.
