David Edwards

**The Link Between Company Environmental and Financial Performance (Routledge Revivals)** David Edwards

*The Link between Company Environmental & Financial Performance*, first published in 1998, is a detailed investigation into the effects of environmental performance – resource efficiency, regulatory compliance, new product and service opportunities – on corporate financial performance. This report makes essential reading for company management, investors and other stakeholders.

It demonstrates the quantitative links between environmental and financial performance for the UK's best and worst environmental performers across a range of business sectors. It shows that there is no financial penalty for being environmentally proactive, and confirms US findings that good environmental performance improves a company's financial performance.
