## Seashore (Habitat Explorer) Nick Baker

A practical guide for kids aged 7-11, by popular Really Wild Show presenter Nick Baker, full of exciting things to see and do pretty much everywhere.

The habitat explorers are a series of four books containing numerous step-by-step projects to lead the curious young naturalist off down a path of exploration. These guides are not simply a tick list of things you can see (though they teach all those basic identification skills): rather they encourage kids to see what's around them by getting their hands dirty. And because they're so straightforward and safe to use, parents can feel confident in helping their kids to explore the wildlife around.

Perfect for half terms and long summer holidays, whether you're in the back garden or on a family day out.

- Introduction to the different kinds of coastal environment: Rocky Shores, Sandy Shores, Cliffs and Estuaries, and also Beach Zones
- Projects include making and using nets, traps, beach combing, and baiting for Netted-dog whelk
- Explains where and when to look for hidden life on the beach and how to look – stuff you will need
