Pattern Recognition and Trading Decisions (McGraw-Hill Trader's Edge) Chris Satchwell

Success in technical analysis is all about recognizing, and quickly acting on, patterns of market behavior. *Pattern Recognition and Trading Decisions* shows active traders how to realize when a pattern is developing, distinguish between a genuine pattern and a misleading series of events, and apply this recognition for success in specific trading situations. A how-to guide that steers clear of difficult calculations and formulas, this dynamic book--from an author tabbed "far ahead of anyone else" by technical analysis guru Martin Pring--is destined to be on the desktop of every serious technical trader.
