Management of Urological Emergencies

Dennis L Cochlin MB BCh FRCR

Management of Urological Emergencies Dennis L Cochlin MB BCh FRCR

Currently, information on the management of urological emergencies is predominantly available in the larger general urological textbooks. Management of Urological Emergencies presents, in a single volume, a clear, practical account of all urological emergencies for the benefit of trainees/residents and practicing urological surgeons. The principles relevant to decision-making and clinical management of all types of urological emergencies are discussed in detail. The highly-illustrated book is a quick reference guide for the wards and emergency rooms and is essential reading for the preparation for the FRCS (Urol) and other equivalent end-of-training exit examinations.
