What if you could have an owner’s manual on reading ownership? What if there really were a framework for building students’ agency and independence?

There’s no “what if?” about it. When it comes to teaching reading, Gravity Goldberg declares there is a structure, one that works with your current curriculum, to help readers take charge. The way forward Gravity says lies in admiring, studying, and really getting to know your students.

Consider *Mindsets & Moves* your guide. Here, Gravity describes how to let go of our default roles of assigner, monitor, and manager and instead shift to a growth mindset. Easily replicable in any setting, any time, her 4 M framework ultimately lightens your load because they allow students to monitor and direct their reading lives.
