How to Kill: Ex-wives and cops and doctors and politicians and everything else in the world Al Case
How to Kill...Ex-wives and cops and doctors and politicians and everything else in the world that crawls out from under a rock. A suspense thriller of a novel that gives the lesson in sordid and detailed fashion. The tragedy of Joe Landry, to whom everything nasty and inconceivable was done, and who decided to fight back. How he was slaughtered, how he survived, and how he fought for redemption and became a sociopath in the process. It is actually not hard to kill, but it is hard to kill and get away with it. In this book, 'How to Kill,' written by the rather diabolical Al Case, the exact reason some people can kill and get away with it is discussed. It will be discussed with gory details and splendid example. By the time you finish this novel you will have made up your mind that you are the sort that can get away with it, or you will have realized that you shouldn't go near a dripping dagger or a smoking gun or any other instrument of murder. In the extreme, you might even come up with a plan to 'remake' yourself so that you can murder as you wish and not get caught. The majority of us won't. Too bad, because there are a lot of people in this society that it would be a service to kill. And don't ask me who, the list is too long. But, there you go, you either have it or you don't. You will either figure out that one quality that you must have, or you won't. And, just to be sure, don't take this book as a recommendation to begin your killing spree. I would rather that you work on those qualities that would make you into the sort of person who shouldn't be killed.
