**Territorial Changes and International Conflict (Studies in International Conflict)** Paul Diehl, Gary Goertz

This book charts the incidence of territorial changes and military conflicts from 1816 to 1980. Using statistical and descriptive analysis, the authors attempt to answer three related sets of questions:

- \* When does military conflict accompany the process of national independence?
  
- \* When do states fight over territorial changes and when are such transactions completed peacefully?
  
- \* How do territorial changes affect future military conflict between the states involved in the exchange?
