## **Disarming Hitler's V Weapons: Bomb Disposal, the V1 and V2 rockets** Chris Ransted

"In 1944, the V-1s and V-2s, Hitler's 'vengeance' weapons, were regarded by the British as the single greatest threat of the war. It was the job of the specialist bomb disposal teams to render the V-weapons safe and uncover their secrets. This is their story. In this unique book Chris has investigated the work of these unsung heroes who risked their lives every time they were called into action. In the course of his research he located the sites of many unexploded V-weapons, revealed here for the first time. The book is richly illustrated with 266 photographs and diagrams, many of which have never previously been published. In completing this, the most comprehensive study of its kind, the author describes the deeds of those gallant bomb disposal men."
