Evidence-Based Endocrinology (Contemporary Endocrinology)

Victor M. (Ed.) Montori

Evidence-Based Endocrinology (Contemporary Endocrinology) Victor M. (Ed.) Montori

Internationally recognized experts, pioneers, and opinion makers in evidence-based medicine (EBM) provocatively recast endocrine policy and practice in the light of EBM philosophy and principles. The authors explain the past, present, and future of EBM; consider its practical implications for endocrinology; demonstrate what the 'evidence base' is in EBM; and present illustrative case studies by practicing evidence-based clinicians. Highlights include essays on why cost-effective analyses are problematic, the contrast between clinical investigations and large randomized trials, the role of Cochrane reviews and meta-analyses, and the curriculum requirements for training evidence-based endocrinologists.
