Duplex Systems: Hot-dip Galvanizing Plus Painting J.F.H. van Eijnsbergen

This book is unique in several aspects.

- It is the first comprehensive text ever written on the subject of duplex systems, which is the generic term for painted hot-dip galvanized steel.
- Both the traditional batch hot-dip galvanizing process and the modern sheet galvanizing processes are covered.
- The author offers a combination of practical information, which will enable the engineer to select the proper materials, and scientific background information.
- The practical guidelines are backed up and supported by an impressive amount of technical and scientific discussions and justifications.
- Modern surface analysis tools and recent applications are described.
- The world literature on the subject matter is covered and is up to date.

Duplex systems, which are based on the synergistic effect of galvanizing and painting, offer maximum protection against corrosion of steel surfaces in environments where galvanized steel alone cannot offer a sufficiently long resistance against rust formation. Since adhesion problems can be eliminated by the correct application of special paint products, and by sophisticated surface pretreatment and modern surface analyzing methods, duplex systems are nowadays used in a large number of industrial and domestic applications. Major savings can thus be achieved on materials and maintenance cost. Duplex systems serve also where colour is required, e.g. for aesthetic reasons, for enhancing visibility or for camouflaging.

The author of this book has an unsurpassed experience in this field and the many case histories of successful (and unsuccessful) use of duplex systems for corrosion prevention provide a wealth of practical information. Including 108 colour illustrations, the book will be useful to a large group of industries, such as the paint, metallurgical, galvanizing, building, automotive, electrical and chemical industries.

From reader reviews:

Ashley Mansfield:

This book untitled Duplex Systems: Hot-dip Galvanizing Plus Painting to be one of several books which best seller in this year, here is because when you read this book you can get a lot of benefit onto it. You will easily to buy this book in the book retailer or you can order it by way of online. The publisher with this book sells the e-book too. It makes you more readily to read this book, as you can read this book in your Mobile phone. So there is no reason to you to past this book from your list.

Mollie Walker:

The book Duplex Systems: Hot-dip Galvanizing Plus Painting will bring you to definitely the new experience of reading some sort of book. The author style to describe the idea is very unique. In the event you try to find new book to learn, this book very acceptable to you. The book Duplex Systems: Hot-dip Galvanizing Plus Painting is much recommended to you to learn. You can also get the e-book through the official web site, so you can more easily to read the book.

Coleen Faircloth:

You can get this Duplex Systems: Hot-dip Galvanizing Plus Painting by look at the bookstore or Mall. Simply viewing or reviewing it could to be your solve trouble if you get difficulties to your knowledge. Kinds of this book are various. Not only through written or printed but additionally can you enjoy this book through e-book. In the modern era including now, you just looking because of your mobile phone and searching what your problem. Right now, choose your own ways to get more information about your publication. It is most important to arrange you to ultimately make your knowledge are still upgrade. Let's try to choose correct ways for you.

Lisa Bentley:

Reading a publication make you to get more knowledge as a result. You can take knowledge and information from a book. Book is written or printed or descriptive from each source which filled update of news. Within this modern era like now, many ways to get information are available for an individual. From media social like newspaper, magazines, science guide, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you hip to spend your spare time to spread out your book? Or just trying to find the Duplex Systems: Hot-dip Galvanizing Plus Painting when you necessary it?
