Handbook of Self-Regulation of Learning and Performance (Educational Psychology Handbook)

Handbook of Self-Regulation of Learning and Performance (Educational Psychology Handbook)

Self-regulated learning (or self-regulation) refers to the process whereby learners personally activate and sustain cognitions, affects, and behaviours that are systematically oriented toward the attainment of learning goals. This is the first volume to integrate into a single volume all aspects of the field of self-regulation of learning and performance: basic domains, applications to content areas, instructional issues, methodological issues, and individual differences. It draws on research from such diverse areas as cognitive, educational, clinical, social, and organizational psychology. Distinguishing features include:

Chapter Structure – To ensure uniformity and coherence across chapters, each chapter author addresses the theoretical ideas underlying their topic, research evidence bearing on these ideas, future research directions, and implications for educational practice.

International – Because research on self-regulation is increasingly global, a significant number of international contributors are included (see table of contents).

Readable – In order to make the book accessible to students, chapters have been carefully edited for clarity, conciseness, and organizational consistency.

Expertise – All chapters are written by leading researchers from around the world who are highly regarded experts on their particular topics and are active contributors to the field.

In this period of time globalization it is important to someone to acquire information. The information will make a professional understand the condition of the world. The health of the world makes the information much easier to share. You can find a lot of referrals to get information example: internet, classifieds, book, and soon. You will observe that now, a lot of publisher that will print many kinds of book. The book that recommended to your account is Handbook of Self-Regulation of Learning and Performance (Educational Psychology Handbook) this book consist a lot of the information in the condition of this world now. This particular book was represented how can the world has grown up. The words styles that writer value to explain it is easy to understand. The writer made some exploration when he makes this book. That's why this book appropriate all of you.

Claudette Everett:

As a student exactly feel bored to be able to reading. If their teacher questioned them to go to the library or even make summary for some publication, they are complained. Just small students that has reading's heart or real their interest. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that examining is not important, boring and can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for you. As we know that

on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Handbook of Self-Regulation of Learning and Performance (Educational Psychology Handbook) can make you truly feel more interested to read.
