Revolución urbana: Estado, mercado y capital en América Latina (Spanish Edition) Carlos A. De Mattos

Con el avance del actual proceso de modernización capitalista, se acumula evidencia sobre la agudización de la actual crisis financiera mundial y la incontrolable urbanización planetaria. Esto ha agravado los problemas y riesgos sociales y ambientales que amenazan al planeta en su conjunto.

Parece existir amplio consenso en que las desigualdades sociales y el deterioro ambiental han empeorado. Todo esto ha evolucionado junto a la urbanización generalizada y a la formación de enormes regiones urbanas, cuya incesante expansión continúa incidiendo en el deterioro del medio ambiente global.

¿Significa esto que nos encaminamos hacia un callejón sin salida? Aún cuando la respuesta debería ser negativa, no es posible soslayar que, de persistir esta obstinada tendencia, el futuro previsible para las nuevas generaciones no alienta al optimismo.

El libro nos invita a la discusión sobre la necesidad de redoblar esfuerzos, en la tarea de profundizar el análisis de la realidad en que vivimos desde una perspectiva crítica, intensificando nuestros esfuerzos por aportar elementos de juicio sobre los peligros que nos aguardan. Todo, con el propósito de estimular respuestas individuales y colectivas que puedan alejarnos de un escenario pesimista que muchos estudios e investigaciones científicas ya han avizorado y que el autor espera lograr con esta obra
