Pasquale Pizzichetti

Impianto solare termico autogestito (Italian Edition) Pasquale Pizzichetti

Avete mai pensato agli impianti solari per ridurre la spesa di combustibile per il riscaldamento della vostra casa e l'impatto sul clima? Mi auguro di sì. Ma questa buona intenzione dovrebbe tenere conto anche di alcuni fattori che riguardano oltre il costo, la manutenzione e la gestione degli impianti.

Questa guida è destinata a tutti, soprattutto ai non professionisti del settore.

In questo modo vorrei agevolare chi, come me, si è trovato in difficoltà con la gestione ordinaria, nonostante il supporto di artigiani e fornitori del settore. Ma anche agevolare chi deve decidere se e come procedere col progetto, fornendo elementi utili di valutazione per la realizzazione dell'impianto.

In questo modo spero di favorire l'implementazione e la diffusione di impianti solari ed in genere l'uso di energia da fonti rinnovabili (F.E.R).
