On Epidemics: Spiritual Perspectives Rudolf Steiner

‘If we can bring nothing up out of ourselves except fear of the illnesses which surround us at the seat of an epidemic, and if we go to sleep at night filled with nothing but thoughts of this fear, then we create unconscious replicas, imaginations, which are drenched in fear. And this is an excellent method for nurturing bacteria...’ - Rudolf Steiner. Based on brief, pithy quotations from Rudolf Steiner’s collected works, the ‘spiritual perspectives’ in this volume present core concepts on the subject of epidemics. These brief extracts do not claim to provide exhaustive treatment of the subject, but open up approaches to the complexity of Steiner’s extraordinary world of ideas. Some readers will find these fragments sufficient stimulus in themselves, whilst others will use the source references as signposts towards deeper study and understanding.
