Doctrinal Commentary on the Pearl of Great Price: Revised Edition Hyrum L. Andrus

The contributions of the Pearl of Great Price to our understanding of the gospel of Jesus Christ are vital but perhaps not well known. The shortest of the standard works, it covers a broad range of doctrine and includes insights that are both clear and profound.

Among the many doctrinal subjects treated in this volume are the nature of God, man's premortal existence, the creation of the earth, the fall of Adam, the Atonement of Christ, and the establishment of Zion in Enoch's day and its relationship to the last days. This volume is a wonderful resource for all who seek a fuller understanding of the gospel through the ages.
