Jumpers Steven Gould

This is the omnibus edition of the novels JUMPER and REFLEX, the short-story "Shade", and a preview of the upcoming sequel to REFLEX, IMPULSE.

Jumper

The sudden discovery of his teleportation ability rescues teenager David Rice from his abusive father. It also signals the beginning of a new life for the troubled young man. Gould's first novel features a hero who is not particularly wise and whose ethics are sometimes questionable, but whose yearnings and psychological turmoil ring true. A dollop of suspense and a dash of romance make this fast-paced sf adventure a good purchase for large libraries.

Reflex

Starred Review. In this delightful SF thriller, the long-anticipated sequel to the critically acclaimed Jumper (1992), Gould puts a fresh spin on the classic plot device of human teleportation. Once a teen struggling to escape an abusive father, Davy Rice is now a covert operative for the National Security Agency and happily married to Oklahoma psychologist Millie Harrison-Rice. Enter sudden marital discord over starting a family, and Davy, eager to avoid the issue, jumps from their remote West Texas hideaway to a meeting in Washington, D.C., only to be snatched by an evil organization intent upon forcing "the asset" to work for them. The baffled Millie keeps waiting for her husband to return, until she discovers that she, too, can teleport through space. While Davy spends much of the book a defiant prisoner, Millie learns the joy of jumping. In her effort to rescue her husband, she goes to ground and hides her dangerous new ability from the NSA and Davy's captors. The author's savvy decision to have the couple share this unique ability gives the sequel a rush of new energy, creating dazzling future possibilities for the duo. Though Gould continues to exuberantly press the boundaries of scientific credibility, his gift for placing ordinary people in extraordinary situations against a backdrop of international concerns makes this fast-paced adventure sizzle.

Shade

Steven Gould's classic SF novel Jumper is the story of a young man with a single mysterious superpower: he can teleport anywhere, in the blink of an eye. Now, in a story set after Jumper's sequel Reflex, we see that a single mysterious superpower can add up to a lot of different kinds of miracle...

In 2008 Jumper was brought to the screen as a big-budget SF adventure of the same name, directed by Doug Liman and starring Hayden Christiansen and Samuel L. Jackson. The movie rearranged the story line and gave the protagonist a teleporting sidekick. When the movie's producers expressed a desire to see a novel published about the sidekick's backstory, Gould chose to write the book himself; it was published as Jumper: Griffin's Story (2007), and is not canonical with the other two "Jumper" novels. "Shade" takes place in the world of the novels, not the alternate continuity of the movie.

Impulse

Cent is the teenaged daughter of two very special people, Davy and Millie, the world's only teleports, but her life is far from ideal. Kept in isolation to protect her from her parents' enemies, she wants a normal life, a life with friends and, perhaps, romance. She wants to go to school like any other normal child.

If only she were normal...
