Painting and Finishing Techniques (Osprey Modelling) Gary Edmundson

Although many modellers can master the basic techniques of construction, it is with the painting and finishing of their kits that many begin to struggle. It is this skill that gives the model its distinctive look and feel and separates the good model from the truly great one. This title presents a detailed, step-by-step approach to addressing the difficulties involved in creating realistic, colourful finishes to armour and aviation models using a variety of different media and techniques. Aimed at both the beginner and the intermediate modeller looking to improve their skills, this chapter-by-chapter guide offers something for everyone.
