**On the Genealogy of Morality** Friedrich Nietzsche, Maudemarie Clark, Alan J. Swensen

• Translation and Notes by Maudemarie Clark and Alan J. Swensen.

Introduction by Maudemarie Clark

This new edition is the product of a collaboration between a Germanist and a philosopher who is also a Nietzsche scholar. The translation strives not only to communicate a sense of Nietzsche's style but also to convey his meaning accurately—and thus to be an important advance on previous translations of this work. A superb set of notes ensures that Clark and Swensen's *Genealogy* will become the new edition of choice for classroom use.

"Hackett's *On the Genealogy of Morality* (we now have even the correct title!) may very well change the entire climate for reading Nietzsche in English—especially if read in conjunction with their equally splendid *Twilight of the Idols*. . . . Competing translations of Nietzsche's late, utterly influential masterpieces have often made them a chore, rather than a delight, to read; and their introductions generally obscure, rather than illuminate, the texts' situations. Clark and Swensen (and Polt and Strong) have made the *Genealogy* and *Twilight* accessible and exhilarating—while leaving them, as they are, enigmatic and problematic. Finally, readers of Nietzsche in English can—begin!"

—William Arctander O'Brien, *University of California, San Diego*

"This unique collaboration of an internationally renowned Nietzsche commentator and a scholar of German language and literature has yielded the finest existing edition of Nietzsche's book in English. The translation itself strikes an intelligent balance between fidelity to the German and readability in English. It is especially welcome for bringing an historically and philosophically sensitive appreciation of Nietzsche to bear on translation issues. (The decision to translate *Mitleid* consistently as 'compassion,' instead of 'pity'—thus emphasizing for the English-language reader Nietzsche's opposition to Schopenhauer's moral philosophy—is but one of many examples.) The Introduction is the most philosophically substantial guide to the *Genealogy* in any edition, and will be of value to both student and specialist. Most remarkable of all are the notes on the text: the wealth of biographical, historical, philosophical, and literary detail makes the volume the most informative and reader-friendly edition of Nietzsche's work to date. The notes will also prove fascinating for the scholar, as the editors have tracked down the numerous contemporary scholarly sources on which Nietzsche relied in writing the *Genealogy*."

—Brian Leiter, *University of Texas at Austin*
